Craig – Please ignore my voicemail. Found Mark Thomas' contact info (ASPECT program manager) and he is working on posting the JP2's for R6 as I type. He's the only one doing the processing right now so he's moving as fast as he can.

Eric/Janine – Obliques and aerials (both in JP2) should be posted to the same FTP site they sent you earlier. Mark made a point of mentioning the aerials are dark due to bad weather and time of flight. Obliques should be a bit better.

Janine, you have my # - let me know if you need anything else.
-grace
